# HData

Energy Regulatory Intelligence for Financial Institutions

In regulated energy, important signals for investors live inside rate cases, commission orders, and regulatory filings that are dense, disparate, and time-consuming to analyze.

HData helps financial professionals turn regulatory complexity into strategic advantage, enabling faster, more comprehensive research that leads to better-informed decisions and earlier identification of regulatory risk.

HData Combines Centralized Regulatory Data with Powerful AI and Purpose-Built Tools to Accelerate Analysis

EQUITY RESEARCH
Track rate case outcomes, commission precedents, and allowed returns across utilities. Monitor regulatory developments and posture across regulators.

DUE DILIGENCE
Rapidly assess a target utility's regulatory history, pending proceedings, and jurisdictional risk profile. Surface key arguments, positions, and intervenor activity across dockets to identify risks and opportunities.

REGULATORY RISK ASSESSMENT
Evaluate how policy shifts, commission decisions, and legislative trends could affect a utility's cost recovery, capital program, or competitive position.

BENCHMARKING
Compare financial and regulatory metrics across utilities, such as rate structures, capital recovery timelines, and authorized ROEs to contextualize performance and inform investment decisions.

HData

Energy Regulatory Intelligence for Financial Institutions

Platform Capabilities and Features

CENTRALIZED REGULATORY DATA

Docket and file library including 50 state PUCs, FERC, ISO and RTO committees, IRPs and transmission plans

COMPREHENSIVE COVERAGE

More than 20 million filings dating back to first public availability with daily data refreshes

GLOBAL FILE & DOCKET SEARCH

Advanced search and filtering to cast a wide information net or pinpoint specific entities and topics

SECURE FILE STORAGE

AICPA SOC aicpa.org/socfor

Upload or integrate proprietary files and data sources with enterprise-level, SOC-certified data protection

AI-POWERED ANALYSIS

Query up to 400 files at once in a grounded environment with all AI-generated responses validated using detailed source citations

REGULATORY MONITORING

Customize notifications for regulatory developments and new filings by docket, entity, jurisdiction, or topic

The Energy Sector's Regulatory Intelligence Platform

NEXTera ENERGY · PG&E · Southern Company · LS Power · PAPUC · NEW MEXICO PUBLIC REGULATION COMMISSION · EY · accenture · Guidehouse
